| LANGUAGE BEYOND BORDERS

You don't just speak another language: you have to live it. You need to bridge cultural differences, make real connections and feel confident. It is more than a skill.

At Regina Coeli, we provide intensive and personalised programmes in which you are immersed in language, culture and communication. Our bespoke courses help you to communicate fluently, persuasively and confidently.

Welcome to the place where language takes you further.

A METHOD WITH HISTORY

At Regina Coeli, you learn to communicate with conviction, nuance and understanding, beyond borders. Our methods are based on over sixty years of experience, enriched with modern scientific insights.

Effective learning

Our approach is rooted in brain-based learning: the science behind how people learn best. We create an environment in which you can perform optimally, one that is safe, stimulating and full of variety. You learn by listening, speaking, reading and writing in the target language, in contexts that are meaningful to you.

Practical application

Training is only successful if you can use what you learn. This is why we prioritise knowledge transfer: using the knowledge and skills you learn with us to your life. We activate your existing knowledge of the language, build on it and practise with situations from your context.

The CEFR: A practical benchmark

To accurately assess your level and progress, we use the Common European Framework of Reference for Languages. This allows us to measure your speaking, listening, reading and writing skills. This gives you an objective framework so you can see how you progress personally, professionally and practically.

WHO WE ARE

Regina Coeli is a language institute founded in 1963 that provides bespoke, immersive courses for people looking to level up their language. Our courses, led by native speaker teachers, offer more than language: we provide full immersion in linguistics, culture and effective communication. At the heart of everything we do is our belief in the power of language to connect ideas, cultures and people.

The Nuns of Vught

You might have heard of us by another name: "the Nuns of Vught". Our institute was founded in 1963 by the Sisters of the Holy Order of St. Augustine, an international education congregation that created the "Regina Coeli method". It was the nuns who grew the institute's reputation as the place to go when you really wanted to learn a language.

There aren't any nuns teaching at Regina Coeli anymore, but you can still feel their values in our actions, from the tranquillity of our premises and personal approach to our charity work.

Our mission: communication with impact

Everything we do is about effective communication across languages and cultures. We don't do this with standard methods, but with an approach that is fully tailored to who you are, what you need and how you learn best. You work with expert language trainers to improve your communication in a safe, focused environment. And you can feel that in every detail of our institute.
